COMMISSIONER

Memo

To: File  
From: Jim Beyer  
Subject: September 6 Site Visit to Saponac Pond

On September 6, 2012, I took the Water division's boat to Saponac Pond and toured the pond. While there, I took photographs from two locations on the pond. I also took GPS points at the locations of the photographs. The photos from Location 1 include several photos that create a panoramic view of Passadumkeag Mountain as well as individual photos of the development that is visible from the location. At Location 2 I took photos of the existing Rollins Wind project which is visible to the north, a series of photos that create a panorama and photos of the development that is visible from this location.
